

DEPARTMENT OF PUBLIC SERVICE REGULATION
BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MONTANA

IN THE MATTER of the Application)	
of the CONSUMERS GAS COMPANY for)	DOCKET NO. 6514
Authority to Increase Rates and)	ORDER NO. 4356c
Charges for Natural Gas Service)	<u>TEMPORARY RATE ORDER</u>

FINDINGS OF FACT

1. On June 13, 1977, CONSUMERS GAS COMPANY (Applicant) made application to this Commission for authority to increase rates in order to offset increased gas costs charged by Treasure State Pipe Line Company which resulted from increased gas costs charged by The Montana Power Company under Docket No. 6454.

2. Consumers Gas Company purchases one hundred percent (100%) of its gas from Treasure State Pipe Line Company.

3. On June 9, 1977, this Commission granted Montana Power Company a temporary increase in its natural gas rates. Included in the temporary rate increase Order was authorization to increase charges to Montana Power's small utility customers.

4. On November 1, 1977, the Commission's Order No. 4350a in Docket No. 6454 granted Montana Power a second temporary natural gas rate increase.

5. Order No. 4350a resulted in increased purchased gas costs to Applicant.

6. On November 4, 1977, the District Court for the First Judicial District of the State of Montana issued an Order in the

appeal by the Anaconda Company and Ideal Cement Company of this Commission's Order 4220C in Docket No. 6348. Judge Meloy's Order found that the Commission had before it no evidence of record upon which to base the volumetric revenue allocation directed by Order No. 4220C. The Court held that "because the record is devoid of evidence sufficient to support the allocation imposed by the Commission order, the Commission is directed to allocate on the basis of the status quo prior to the entry of Order No. 4220C, and such allocations shall apply until the Commission, if it so decides, shall re-open the proceedings and receive evidence sufficient to support a different allocation method if such evidence is available".

7. Pending the complete evaluation of evidence in Docket No. 6454 and the issuance of the final Order, the Commission was constrained by the Court's holding invalid of the revenue allocations used in Order No. 4220C to allocate the revenue increases granted in that and subsequent orders on a uniform percentage basis, as proposed by Applicant, with the exception of revenue increases granted for the purposes of offsetting increased gas supply costs which shall continue to be allocated on a volumetric basis as they were prior to Order No. 4220C.

8. On December 1, 1977, the Commission's Order No. 4220D in Docket No. 6348 changed the method of revenue allocation to Montana Power customers to be consistent with that prescribed in the Order of the Court. Order No. 4350C in Docket No. 6454 was

issued the same day in order to comply with the intent of that Court Order. Both Order No. 4220D and Order No. 4350B applied uniform percentage revenue allocations in place of the volumetric allocation originally used.

9. Order No. 4220D and Order No. 4350C resulted in an expense decrease to Consumers gas company.

10. On April 24, 1978, the Commission's Order No. 4350D in Docket No. 6454 granted Montana Power a permanent natural gas increase.

11. Order No. 4350D will result in an expense increase to Consumers Gas Company.

CONCLUSIONS OF LAW

1. Under RCM 1947, Sec. 70-113, the Commission has authority to order a rate increase on a temporary basis.

2. The cumulative impact on Consumers Gas Company's gas costs of the various orders issued to Montana Power in Docket No. 6454 will be dealt within a proposed public hearing.

ORDER

1. The Consumers Gas Company is ordered to increase its rates in an amount identical to its gas cost increase resulting from Order No. 4350D, and to file tariffs and supporting calculations.

2. The increased rates will be effective upon Commission approval of the filed tariffs.
