DEPARTMENT OF PUBLIC SERVICE REGULATION
BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MONTANA

* * * * *

IN THE MATTER OF NORTHWESTERN)	UTILITY DIVISION
ENERGY, 2006 Initial Abbreviated Application)	
for Approval of a Natural Gas Procurement)	DOCKET NO. D2006.2.21
Plan)	ORDER NO. 6718

PROTECTIVE ORDER

On February 16, 2006, NorthWestern Energy (NWE) filed before the Public Service Commission (PSC) a motion for protective order to govern certain information expected to be filed in the above-entitled matter. NWE's motion is proper in form and includes the elements required in a motion for protective order before the PSC.

NWE states that it has done a thorough legal and factual examination and has determined the specific items or categories of like items identified are trade secrets or otherwise legally protectible. *ARM 38.2.5007(2)*. NWE states that it has considered that the PSC is a public agency and that there is a presumption of access to documents and information in the PSC's possession. *ARM 38.2.5007(4)(b)(i)*. NWE states that it understands it has the burden of demonstrating that the identified items are confidential information and that it must, within its motion, establish a prima facie showing of confidentiality, factually and legally, and make clear the basis for the claim of confidentiality. *ARM 38.2.5007(3)*. NWE names a contact person regarding the motion and regarding the items to be protected. *ARM 38.2.5007(3)(a)*. NWE has included a complete and specific non-confidential identification of the items or categories of items for which it seeks protection. *ARM 38.2.5007(3)(b)*. For each item or category of like items NWE has supplied what it believes is a complete and specific factual basis, including thorough identification and explanation of specific facts, and a complete and specific legal basis and application of the law to facts. *ARM 38.2.5007(3)(c)*. NWE has included an affidavit that NWE suggests supports the facts, is by a person qualified on the subject matter, and supports the claim of confidentiality of the identified information. *ARM 38.2.5007(3)(c)*. NWE states it has

explained, in detail, for each item or category of like items, including thorough facts and legal analysis as it relates in general and in specific, proper application of the element of trade secret. *ARM 38.2.5007(3)(d)*. NWE's motion has been noticed in accordance with *ARM 38.2.5007(8)*.

NWE requests protection of ten categories of information: (1) detailed monthly gas costs and supporting invoices; (2) detailed monthly gas volumes and supporting invoices; (3) location of monthly gas delivery and supporting invoices; (4) identity of parties selling gas to NWE; (5) storage and transportation utilization; (6) identity of request for proposal (RFP) respondents and negotiators; (7) costs associated with RFPs and negotiations; (8) volumes associated with RFPs and negotiations; (9) location of delivery associated with RFPs and negotiations; (10) NWE evaluation of RFPs and negotiators. NWE states that all of this information has recently been protected by the PSC in NWE's 2005 gas tracker, PSC Docket No. D2005.5.87, Order No. 6685, August 19, 2005. The information has also been protected in NWE's 2005 development of natural gas procurement plan guidelines, PSC Docket No. N2005.6.101, Order No. 6683a, November 17, 2005.

The PSC determines that NWE has shown good and sufficient cause in fact and law that the information for which protection is requested is entitled to protection from uncontrolled disclosure, pursuant to § 69-3-105, MCA (PSC authority to issue protective orders), as trade secret. In accordance with § 30-14-402, MCA (statutory definition of trade secret), PSC rule *ARM 38.2.5007(4)(b)* identifies the elements of trade secret as: (a) the items or categories identified are information; (b) the information is in fact secret; (c) the information is subject to efforts reasonable under the circumstances to maintain its secrecy; (d) the information is not readily ascertainable by proper means; and (e) the information derives independent economic value from its secrecy or a competitive advantage is derived from its secrecy. NWE has made the required demonstration that these elements exist for each of the categories of information for which NWE requests protection. The PSC grants NWE's request for protection of the identified information as trade secret and hereby orders that information submitted in accordance with this order be treated as "confidential information" under the terms of this order and PSC protective order rules, *ARM 38.2.5001* through *38.2.5030*.

Done and dated this 28th day of February, 2006, by a vote of 5 to 0.
