**MONTANA-DAKOTA UTILITIES CO.
MONTANA LARGE CUSTOMER GROUP
DATA REQUEST
DATED SEPTEMBER 16, 2015
DOCKET NO. D2015.6.51**

LCG-003

Regarding: Updated Information (as applicable)

Witness:

To the extent the Company files corrections, revisions, amendments, supplemental information and/or errata to its originally filed case, please provide all updated materials including the Company's testimony, exhibits, workpapers and models in an electronic format with working formulas included where applicable

Response:

The Company has not filed any corrections, revisions, amendments or supplemental information to its originally filed case.

Update 10/22/15:

The Company has become aware that Ottertail Power and Northwestern Energy, partners with Montana-Dakota in the ownership of the Big Stone Station located in South Dakota, have used a probable retirement year of 2046 rather than 2027 as presented in Exhibit EMR-1 Electric Depr. Study. While the inclusion of the environmental project at Big Stone does not appear to support a life extension of 19 years, for accounting consistency Montana-Dakota will adopt the probable retirement year utilized by the other partners.

Please see the File LCG - 003 - DEPR TABLES MDU-Elec in the enclosed CD which shows the depreciation rates that reflect the change in retirement year.

Supplemental information will be submitted in the docket.
