On October 31, 1996, Havre Pipeline Company (Applicant) filed an application with the Montana Public Service Commission for an order authorizing the Applicant to decrease its natural gas rates. The Applicant, consistent with the terms and conditions of the "Stipulation and Agreement in Settlement of Ratemaking Proceeding" approved in this Commission's Docket No. 83.9.65, Order No. 5095a, filed a request to decrease natural gas rates charged to its rural farmstead customers.

Having considered the application and documentation furnished by the Applicant in support of its application, and deeming itself fully advised in the premises, the Commission makes the following Findings of Fact and Conclusions of Law:

FINDINGS OF FACT

1. The calculation of the proposed rate is consistent with the terms and conditions of the aforementioned stipulation approved by the Commission in Order No. 5095a. The proposed rates reflect a decrease in the gas-cost component of the rate and the inclusion of administrative expenses (non-gas component).
2. The Applicant alleges that the decreased rates will provide sufficient revenue to operate its utility.
3. The Applicant provided notice to each of its rural farmstead customers of its intent to decrease natural gas rates.
4. The Applicant's request to decrease rates to its rural farmstead customers should be granted.

CONCLUSIONS OF LAW

1. The Applicant, Havre Pipeline Company, is a public utility as defined in § 69-3-101, MCA. The Montana Public Service Commission properly exercises jurisdiction over the Applicant's rates and service pursuant to § 69-3-102, MCA.

2. The rates and rate structure approved in this order are just and reasonable. Section 69-3-201, MCA.

ORDER

1. Northern Natural Gas Company is authorized to implement a rate of \$.9006 per mcf of gas sold.

2. The rate approved herein shall become effective for services rendered on and after November 25, 1996.
