## NOTES AND DISCLAIMERS:

This document shows the verified rates for each utility as of the first day of the month. Mid-month changes are not reflected here.

Gas supply rates for each company may include transportation and storage costs from other parties. The supply rates as shown on this document do not include any deferred supply rates.

**MDU electric** power supply costs consist of fuel used in its generating stations, energy purchases from MISO and a seasonal capacity contract.

**MDU electric** bills are assessed a .331% surcharge on the basic service charge, energy, and demand components of the total bill to recover an undercollection in the PSC and MCC funding fees (for a 3-year period from April 2016).

**MDU electric** bills are assessed a tax tracking adjustment of 8.7202% on the basic service charge, energy charge, and demand charge components of the total bill.

**NWE electric** supply rate includes the revenue requirements for its owned electric generation resources.

**MDU gas** bills are assessed a tax tracker adjustment of 17.7244% on the basic service charge and distribution delivery charge components of the total bill.

**NWE gas** supply rate includes the revenue requirements for its owned natural gas production resources.

**Big Sky Gas** offers residential rates based on term commitments ranging from 12 to 36 months. Those term commitments include a cancellation fee if service is discontinued before the end of the term. This document uses their 12-month rate. Customers previously enrolled in a variable rate plan continue to be served on a variable rate until such time as they switch to a term rate. New customers are required to select a term commitment rate.
