**PSC SEEKS PUBLIC PARTICIPATION IN DEVELOPMENT OF RULES
TO IMPLEMENT NEW STANDARDS FOR INCLUDING RENEWABLE RESOURCES
IN ELECTRICITY SUPPLY PORTFOLIOS**

Prior to drafting rules to implement the new state law that sets standards for renewable energy to be included in regulated utilities' electricity supply portfolios, the state Public Service Commission invites interested persons to submit written comments and to participate in a scoping meeting regarding the law and implementation approaches.

The PSC has issued a notice that contains an analysis of the law and requests written comments on it by September 23. Comments should be mailed to the PSC, Utility Division, 1701 Prospect Ave., Helena MT 59620-2601. The notice and all written comments submitted in response to it will be posted on the PSC's website: www.psc.mt.gov.

The scoping meeting will be held in Helena on Tuesday, October 11, at 1 p.m., in the PSC's Bollinger Room, 1701 Prospect Ave. Interested persons will have an opportunity to discuss and comment on the PSC's analysis and interpretation of the new law and possible implementation approaches.

The Commission welcomes participation by the general public in these implementation activities.
