## NOTES AND DISCLAIMERS:

This document reflects rates shown on tariffs filed and processed for each utility as of the first day of the month. If a company does not have tariffs on file with this office the rates are verified with an employee of that company. Mid-month changes are not reflected on this document until the subsequent month.

Gas supply rates for each company may include transportation and storage costs from other parties.

**Montana Dakota Utilities (MDU) electric** power supply costs consist of fuel used in its generating stations, energy purchases from MISO and a seasonal capacity contract.

**NorthWestern Energy (NWE) electric** supply rate includes the annual variable costs associated with the production and procurement of energy supplies which is calculated annually through its Power Costs and Credit Adjustment Mechanism (PCCAM). In addition it includes the fixed recovery of costs approved in its last electric general rate case Docket 2018.02.012 associated with the operating costs and return on its investment in its five owned generating assets.

**NWE gas** supply rate includes the cost of gas and gas transportation from other suppliers, as well as the Battle Creek, Bear Paw, and Devon revenue requirements.

**Tax tracking adjustments** are included in the total rate for NWE gas, NWE electric, and Big Sky Gas; and are included in the average bill for MDU gas, MDU electric, and Energy West.

**Big Sky Gas (BSG)** offers residential supply rates based on term commitments ranging from 12 to 36 months. Those term commitments include a cancellation fee if service is discontinued before the end of the term. This document uses their 12-month rate. Customers previously enrolled in a variable rate plan continue to be served on a variable rate until such time as they switch to a term rate. New customers are required to select a term commitment rate.
